**SOUTH CAROLINA ELECTRIC & GAS COMPANY – ANNUAL REQUEST FOR REVISED RATES**

In Order No. 2009-104(A), the Public Service Commission of South Carolina (“Commission”) authorized South Carolina Electric & Gas Company (“SCE&G” or “Company”) to construct and operate two 1,117 net megawatt nuclear facilities (“Units”) to be located at the Virgil C. Summer Nuclear Station site near Jenkinsville, South Carolina. In Order No. 2010-12, the Commission approved, among other things, an updated milestone schedule for the construction of the Units, and in Order No. 2011-345, the Commission approved an updated capital costs schedule. On May 27, 2011, SCE&G filed a request, with an effective date of May 30, 2011, seeking Commission approval of revised rates to recover the cost of capital associated with construction costs for the Units during the period ending June 30, 2011. The request for revised rates (“Request”) was filed pursuant to the provisions of the Base Load Review Act, S.C. Code Ann. §§ 58-33-210 *et seq.* (1976, as amended); the Commission’s Rules of Practice and Procedure, 26 S.C. Code Ann. Regs. 103-823 (1976, as amended); and in accordance with the terms of Commission Order No. 2009-104(A) as modified by Order Nos. 2010-12 and 2011-345.

The Base Load Review Act provides that, so long as the Units are being constructed in accordance with the construction schedules and cumulative cost forecasts approved under Commission Order No. 2009-104(A) as modified by Commission Order Nos. 2010-12 and 2011-345, SCE&G is allowed to recover through revised rates its weighted average cost of capital applied to all or part of the outstanding balance of construction work in progress. S.C. Code Ann. § 58-33-280(B).

SCE&G states that as of June 30, 2011, it will have approximately \$484,712,000 in investment in the construction of the Units that is not reflected in current rates. In its Request, SCE&G seeks authorization to revise its current schedules of electric rates and charges to add the incremental revenue requirements related to this investment. The proposed average increase is 2.83% for the residential class, 2.67% for the small general service class and the medium general service class, and 2.49% for the large general service class. The amount and percentage increases vary by rate schedules within these classes, and individual customer bill increases may also vary depending upon actual usage patterns and amount of consumption.

The South Carolina Office of Regulatory Staff (“ORS”) will conduct a review and audit of the proposed revised rates and the information supporting them to determine their compliance with the terms of the Base Load Review Act. A report indicating the results of ORS’s review and audit will be served on the Commission no later than **July 30, 2011**.

No later than **September 30, 2011**, the Commission will issue a revised rates order granting, modifying, or denying the revised rates as filed by the Company.
